## About me

Senior solution architect with wide experience of creating and maintaining IT systems. Deep knowledge of C#, JavaScript, SQL and many other technologies; 10+ experience in Microsoft SharePoint technologies, development of SharePoint and standalone applications, integration with databases and web-services. Experience in IT and a master's degree in engineering makes me capable of executing complicated and challenging projects.

My family and I did Alia last year and I'm looking for a company to continue my career in Israel.

## Technical Skills Set

- Asp.Net, C#, Java Script and frameworks (React, jQuery, NodeJS), XHTML, CSS, PowerShell;
- Areas of development: SharePoint – web-parts, timer jobs, web-services; .Net applications - MVC, console; MSSQL – T-SQL queries, creating stored procedures, views, optimization of SQL queries.

## Job experience

**2008 – 2022 GPB, financial company**

**2015-2022. Senior Software Engineer**

I successfully completed migration from SharePoint 2010 to SharePoint 2019 - 25k+ active users, ~1Tb content databases. I made a substantial analysis of the existing system, its infrastructure, applications and integration with external systems. I created a migration plan and then managed the process, also I developed and implemented tools for direct data migration from SharePoint 2010 to 2019. Successfully led a small team of developers.

**2010 - 2015. Full-stack SharePoint Software developer.**

Full support of the system based on Microsoft SharePoint. Collaborated with contractors to offer and then develop and implement different solutions. Integrated various features and technical specifications of applications, continuous functionality of the Portal system, developed SharePoint solutions for internal needs. Developed applications (Asp.net, C#, MSSQL, SharePoint) with data from several databases, AD, synchronous and asynchronous exchanges between different data sources.

**2008 – 2010. Junior software developer.**

Development of simple applications and functions for internal needs of the company - polls, photogallery, making promo-pages. Simple SQL requests and usage in web-applications.

**Education:** 1998 – 2004 Moscow Institute of Radio Equipment, Electronics and Automation, master's Degree in Radio engineering

**Most recent courses:** SharePoint 2016: Development (Microsoft); SharePoint 2016: Administration (Microsoft); IIS 7.5 Administration and troubleshooting (Microsoft); Visual Studio 2012 ALM Testing Tools (Microsoft)

**Hobbies:** Sports, photo, arduino.

**Languages:** Russian (native), English (Upper Intermediate)
